Comments Report

1. Student Survey of Learning Experience

- 1.19) Based on your experiences in this course, what aspects of the course contributed to your learning?
- All of the written assignments and videos watched, also all of the discussions and lectures given contributed to my learning and understanding.
- Based on my experiences in this course, the lectures contributed most to my learning. I felt that Professor Younos explained things clearly, respectfully, and incorporated tools to life experiences outside of the class.
- I thought the amount of materials were just right and I learned a lot
- The amount of depth and understanding the professor conveyed each lesson with. He is a very passionate and an amazing professor
- The class discussions were always stimulating and interesting.
- The one page short reports were very educational.
- The reading, lectures, outside research really helped my learning in this class. The professor was very knowledgeable about the information he spoke about and I learned a lot. By the professor answering all of the classes questions, that also really furthered my learning. This professor explained all of the material in great detail. He took in everyone's opinion and comments without begin biased. He was a professor that went above and beyond to help his students and any questions they had related to any topic regarding the class. His teaching method was very easy to follow and I feel that I have learned a lot.
- The short assignment on writing of subjects related to the course subject
- This class has changed my views about the Middle East. It is a very rich culture with a lot of history.

 This class should be a requirement for every student to fully understand cultural competence. The Media is bias and many people just hear the negative of the Middle East.
- This class was very informative and I learned a lot from it. The lectures were clear and the videos shown helped expand and clarify certain aspects of the points in the lectures.
- What contributed to my learning the most was the reading materials and videos in class.
- class lectures, discussions, and assignments.
- Based on your experiences in this course, what suggestions do you have for the instructor about how to provide a better learning experience for a student like yourself?
- Based on my experiences in this course, the only thing I can suggest is to continue what has been done. I couldn't have learned any better and I can now move on from this class knowing more about other cultures, in an open minded state.
- Cannot think of anything. The professor provided an excellent class learning experience.
- I believe Dr. Younos needs to have written instructions for each assignment. The syllabus is vague as to his requirement for each assignment.
- I truly enjoyed this class and really liked the student-professor interaction. Everything was great. I really have nothing to add.
- More visual aids for visual learners.
- N/a
- One or two less assignments, and instead more discussions. But overall, I wouldn't change that much.
- Professor Younos did a great job! I got my money's worth.
- The only suggestions that I have is that I would like to see my grades updated more often on Blackboard
- no suggestions would be necessary, since I felt my experience was good based on the professors ability to teach.
- 1.21) Based on your experiences in this course, what changes would you make in your own strategies or approaches to improve your learning?
- Based on my experiences in this course, I would find better strategies to studying for the quizzes.

- Cannot think of any.
- I truly enjoyed this class and really liked the student-professor interaction.
- I would not make any changes to this class. The syllabus and course material was as mentioned by the professor in the beginning of the quarter. He really embraced his class and made everybody feel welcomed and accepted.
- I would participate more in class discussions.
- I would put more effort to finish my assignments on time.
- Keep trying to stay ahead of my assignments.
- More research, and reading done overall.
- N/a
